HISTORY OF THE LEAGUE OF WOMEN VOTERS of JO DAVIESS COUNTY

The idea of a League of Women Voters in Jo Daviess County began with Marge Hospodar and Bonnie Cox. Marge had been very active in the League in Oak Park and she talked with Bonnie about starting one here.

In February, 1981, representatives from the Illinois LWV spoke to a public meeting at the old Kentucky Fried Chicken (now home to the "Galena Gazette". Interest was great and so the process began, starting with the designation of our League as "pre-provisional" in September, 1981. Following completion of certain requirements, our League was given "provisional" status in March, 1983.

Our activities during these two stages included:

Juvenile Court Watching (1981)

Study and consensus on:

- Alternatives to Prison (3-83)
- National Security (10-83)
- Conducting a jail survey (12-83)
- Conducting an income assistance survey (2-84)
- Marital Property Law (4-84)

Conducting a Child Welfare Roundtable, led by LWVIL members (3-83)

Attending legislative seminars in Springfield

Attending LWVIL conventions

Hosting candidate forums

Building an observer corps (of public governing bodies)

Voter registration and

Attending regional workshops.

In order to become a full-fledged League, we also had to:

- Have at least 40 members;
- Write bylaws;
- Prepare a feasibility study;
- Do a study of local government issues;
- Write a nonpartisan policy;
- Develop program;
- Do citizen education;
- Elect officers;
- Financially support the League;
- Publish a "This is Jo Daviess County" booklet; and
- Publish a "Voter" newsletter.

Having accomplished all of this, we gained full local League status in January, 1985!

With our new status, we were able to conduct local studies, come to consensus and take action on:

- Natural Resources (1983)
- Mental Health Services: Preventive and Early Intervention (1985-86)
- Land Use and the Environment

- Planning and Zoning: Study of Land Use Planning & Practices in JDC (1989-90)
- Ground –Water Quality in JDC (1986)

Studies conducted and consensus building continued:

- Landfill Proposals (involving public meetings to educate residents re. the expansion of a landfill near Galena, circulating petitions and mounting an intensive letter-writing campaign. The landfill sale did not take place and EPA closed the landfill site.) (Fall, 1993)
- Children at Risk (2000)
- Breaking the Cycle of Violence (2001)
- Citizen Involvement (2005)
- Immigration in the Tri-State Area (2006)

PRINCIPLES of the LWVUS

The League of Women Voters believes in representative government and in the individual liberties established in the Constitution of the United States. The League of Women Voters of the United States believes that all powers of the U.S. government should be exercised within the constitutional framework of a balance among the three branches of government: legislative, executive, and judicial.

The League of Women Voters believes that democratic government depends upon informed and active participation in government and requires that governmental bodies protect the citizen's right to know by giving adequate notice of proposed actions, holding open meetings and making public records accessible.

The League of Women Voters believes that every citizen should be protected in the right to vote; that every person should have access to free public education that provides equal opportunity for all; and that no person or group should suffer legal, economic or administrative discrimination.

The League of Women Voters believes that efficient and economical government requires competent personnel, the clear assignment of responsibility, adequate financing, and coordination among the different agencies and levels of government.

The League of Women Voters believes that responsible government should be responsive to the will of the people. Government should maintain an equitable and flexible system of taxation, promote the conservation and development of natural resources in the public interest, share in the solution of economic and social problems that affect the general welfare, promote a sound economy and adopt domestic policies that facilitate the solution of international problems.

The League of Women Voters believes that cooperation with other nations is essential in the search for solutions to world problems and that development of international organization and international law is imperative in the promotion of world peace.

WHERE DO THE PRINCIPLES COME FROM?

The Principles are "concepts of government" to which the League subscribes. They are a descendant of the Platform, which served from 1942 to 1946 as the national repository for "principles supported, and positions taken by the League as a whole in fields of government to which it has given sustained attention." Since then, the Principles have served two functions, according to the LWVUS Bylaws:

- Authorization for adoption of national, state and local program (Article XII)
- A basis for taking action at the national, state and local levels (Article XII).

The appropriate Board authorizes action to implement the Principles once it determines that member understanding and agreement do exist, and that action is appropriate. As with other action, when there are ramifications beyond a League's own government jurisdiction, that League should consult other Leagues affected.

The National Board suggests that any action on the Principles be taken in conjunction with current League positions to which they apply and on which member agreement and

understanding are known to exist. The Principles are rather broad when standing alone, so it is necessary to exercise caution when considering using them as a basis for action. Furthermore, since 1974, most of the Principles have been an integral part of the national program, most notably in the criteria for evaluating government that appear at the end of the summary of public policy positions [on www.lwv.org]

**LWVJDC Where We Stand
Our Program Positions**

**PREVENTION AND EARLY INTERVENTION MENTAL HEALTH SERVICES IN JO
DAVISS COUNTY**

Position:

The League supports legislation, funding, and administration of a wide range of prevention and early intervention mental health services in order to meet the needs of the residents of Jo Daviess County. These services should be provided by qualified personnel working for private and governmental agencies and organizations, as well as individual health care providers. The League supports the use of all possible funding sources, but favors a strong base of continuous local funding. (Late 1980s)

**PLANNING AND ZONING: STUDY OF LAND USE PLANNING AND PRACTICES IN
JO DAVIESS COUNTY**

Position:

The League supports the principles of sound land use planning and zoning to guide growth management in Jo Daviess County. A zoning ordinance should make adequate provision for open space and buffer zones to preserve the rural character of the county, and for the removal of abandoned and non-conforming signs. Group homes should be permitted in residential districts. The League supports the hiring of a full time professional zoning administrator who meets high and clearly defined qualifications. (1988)

**GROUNDWATER CONTAMINATION AND THE POTENTIAL FOR CONTAMINATION
IN JO DAVIESS COUNTY**

Position:

The League supports a wide range of measures to control potential sources of groundwater contamination in Jo Daviess County. Both existing and future county and city ordinances which influence groundwater quality should be consistently enforced. The League supports efforts to educate residents of Jo Daviess County about groundwater contamination and methods to reduce potential sources of contamination.
